An update from Housing New Zealand – new housing for 2 Wilson Road, Glen Eden

Background

The Housing New Zealand site at 2 Wilson Street accommodated thirty-nine one-bedroom apartments.

Housing New Zealand is developing the site. We will be building modern, healthy, warm, dry homes that support contemporary living and complement the local environment.

What will be built?

Housing New Zealand is building forty-one new one bedroom homes.

Building forty-one homes makes the most of the 1,318 sqm site and will enable Housing New Zealand to better meet demand for social housing in the area. The new homes will be designed and built to modern standards and will include double glazing, insulation and modern materials and fittings inside and out.
How will the site works be managed?

Auckland Council has granted Housing New Zealand Resource Consent for this development, which has been architecturally designed by Ministry of Architecture and Interiors. The homes will be built by Housing New Zealand in collaboration with a construction partner.

Housing New Zealand will aim to minimise any disruption to the neighbourhood caused by construction activity. All site works will be carried out in accordance with Council requirements. These include things like the hours when work can be carried out, where contractors can park their vehicles, and how noise and dust are controlled.

What happens once the project is finished?

Once the new homes are completed, we will match them to eligible people from the social housing register who need a home of the type (one-bedroom) included in the development.

Expected timeline

1. October 2018
   Building works expected to start

2. March 2020
   New homes complete
