Kia Ora Neighbour,

Housing Opportunities near where you live

To help meet the urgent need for more homes for whānau and tamariki in Palmerston North, Kāinga Ora – Homes and Communities is looking at and how we could redevelop our site at 6-28 Crewe Crescent & 1-6 Bolton Place.

What's happening?

We're in the early stages of exploring how this site could be developed for medium density public housing, and expect to offer a range of different sized homes.

You may notice some activity on the site, including contractors on the property doing site investigation and survey work.

Keeping in touch

We are excited to be developing this site for much needed new homes for people and whānau in the city most in need of housing, and hope to bring you our early designs soon.

We're committed to keeping you updated on plans for delivering these homes in your neighbourhood, and once initial high-level concept plans for the site have been developed further, we will share these with you for your feedback. This will involve drop in sessions and survey feedback, in addition to factsheets with renders and potential designs.

In the meantime, we want to hear the voices of our community and partners to ensure we are building neighbourhoods, not just homes. We'd love to get your initial feedback, so please go to www.surveymonkey.com/r/pncrewebolton to give us your thoughts.
