Healthy Homes

Kāinga Ora currently has 171 homes in Matamata-Piako District. The Residential Tenancies (Healthy Homes Standards) Regulations (2019) sets out minimum standards for heating, insulation, ventilation, moisture ingress/drainage, and draught-stopping. Kāinga Ora has to ensure all homes across our portfolio comply with these standards by 1 July 2024. Work is underway in the District to ensure all our homes meet these standards. As at 28 February 2023, 124 now comply, 30 have work in progress and the 17 remaining homes will be addressed before July 2024.

Home Ownership Assistance

Looking at buying your first home but not sure where to start? Kāinga Ora offers several products and resources that can give you a helping hand toward home ownership. Community Engagements

Community Engagement is ongoing. Over the past six months we have engaged with the Morrinsville and Matamata communities through individual conversations and emails, letters, and seven community drop in sessions. Through these conversations, we have been able to talk through plans and hear concerns, feeding these back to the appropriate Kāinga Ora staff to incorporate in our planning. Across 2023 we will be at Morrinsville Community Centre and Railside by the Green every second month to continue these conversations.

Kāinga Ora staff remain available to talk with people about any feedback they have.

The majority of homes to be delivered will be built in a factory and then transported to site. All images used are examples of these homes.
