Dear neighbour

Update – proposed housing developments, Coromandel Street, Newtown

Thank you to everyone who has provided feedback to Kāinga Ora – Homes and Communities about our proposed developments at 124-130 and 131 Coromandel Street.

We have been considering this feedback, and can now update you on next steps.

Given the majority of concerns have related to on-street parking availability, Kainga Ora will undertake another independent parking survey. This will provide further information about parking capacity in this area.

We have started the process to engage a company to undertake this, and expect the survey, analysis and report to take up to two months to complete. This second survey information will be assessed alongside the current parking survey. We will then share the surveys and this assessment with you in a community meeting and drop-in session, alongside any potential options for parking, and provide a further opportunity for you to give feedback. We will also put the survey report online at www.kaingaora.govt.nz/coromandel

We will be back in contact with details for the meeting once timeframes for the second survey have been confirmed.

In the meantime, if you have any queries or there is anything further you would like to share with us connected to these proposed developments, please feel free to contact me on 021 541 624 Or 0800 801 601 or email josh.clark@kaingaora.govt.nz.

Yours sincerely

Josh Clark
Stakeholder Relationship Manager
