

14 February 2022

s9(2)(a)

Thank you for your email of 10 January 2022 to Kāinga Ora – Homes and Communities requesting the following information under the Official Information Act 1982 (the Act):

“Regarding the 1,608 homes purchased by Kāinga Ora over the last five years, please provide a spreadsheet, organized by the year of purchase, showing:

- *The address of each property*
- *The number of bedrooms in each property*
- *The purchase price of each property.”*

On 12 January 2022 it was clarified that the “1,608 homes purchased over the past five years” is from a recent media article, based on an earlier request under the Act to Kāinga Ora.

The information provided under the Act that the article was based on recorded 1,607 homes purchased from 1 July 2016 to 30 June 2021.

Attachment 1 provides the number of bedrooms and the cost price (the purchase and estimated costs of improvements). The final costs of these purchases is the total cost, which can include independent valuations and work to bring the property up to the required standard for rental properties, such as additional fencing and other minor works.

There may also be a slight time lag between when a home is bought and when it enters the Kāinga Ora database as a state home, reflecting the time taken to bring a property up to the required standard and to tenant the home.

Street numbers of properties are being withheld under section 9(2)(a) of the Act as the release of this information could compromise the privacy of tenants currently living at these properties.

Kāinga Ora has a mandate to deliver more public housing to help meet the rising demand in many locations. Over the past four years we have accelerated the pace and scale of new builds and large-scale development projects. The number of new state homes being built are the most in two decades.

We do this in a number of ways, such as:

- purchasing land and working with build partners / developers to deliver market, affordable and public housing
- demolishing old Kāinga Ora housing stock and redeveloping to achieve better housing outcomes on the site
- purchasing completed homes from private developers to use for public housing.

Kāinga Ora purchases of existing properties in 2020/21 accounted for less than 0.5 per cent of the 97,254 real estate sales across New Zealand that financial year. In the same year, Kāinga Ora delivered more than 2,400 newly built public and supported homes.

For context, Kāinga Ora only buys existing homes on the open market for a limited number of reasons including to address urgent demand in locations where there is limited or no available stock or where a property is strategically located and acquisition would enable improved development outcomes. Kāinga Ora expects to deliver the majority of new public housing places through redevelopment on its own land.

In addition to the 2,400 new builds, in the past four years Kāinga Ora have delivered over 6,300 newly built homes and have 3,500 under construction or contracted to be built.

Under section 28 of the Act you have the right to seek an investigation and review by the Ombudsman of this response. Contact details for the Ombudsman can be found at www.ombudsman.parliament.nz.

Please note that Kāinga Ora proactively releases our responses to official information requests where possible. Our response to your request may be published at <https://kaingaora.govt.nz/publications/official-information-requests> with your personal information removed.

Yours sincerely

Rachel Kelly
Manager Government Relations

Attachment 1 - homes bought by Kāinga Ora: 1 July 2016 to 30 June 2021
