

31 October 2024

s 9(2)(a)

Dear s 9(2)(a)

Thank you for your request on 23 August 2024 to Kāinga Ora – Homes and Communities for the following information under the Official Information Act 1982 (the Act):

"Are you please able to supply a list of land owned /purchased by Kāinga Ora which is not yet developed. Including location, size, and if available purchase price and date of purchase."

Your request was later refined to:

- land purchased by Kāinga Ora with the intention to build social housing (on part or all of the land), that is not yet developed
- interpret "not yet developed" as not yet built on, to reduce the issue of land purchased that has been partially developed (eg, services installed) but no homes yet built, and land that had Kāinga Ora homes demolished or removed before a redevelopment
- land purchased from November 2017.

The reply date was extended to 31 October 2024 under section 15A(1)(a) of the Act, as the request is for a large quantity of official information or necessitates a search through a large quantity of information and meeting the original time limit would unreasonably interfere with the operations of the department or the venture or the Minister of the Crown or the organisation.

For ease of reference, we have provided the requested information in a table format (Attachment 1), which can be found in the attached PDF.

The refinements to your request do not capture all the land purchases that were part of your emails to Kāinga Ora, as these were land purchases for market and affordable housing. Attachment 2 provides reasons why some of these sites were not included in Attachment 1, such as land for redevelopment (Kāinga Ora homes demolished or removed, but new homes not yet built), sites not owned by Kāinga Ora or sites where development has commenced at the time of your request.

In response to your request:

Between 2017 and 2023 Kāinga Ora was directed to significantly grow the country's stock of social housing. To achieve this it bought land in parts of the country where there was an identified need for more social housing.

Much of that land has been developed with new housing, and 182 sites currently remain undeveloped. Over the two years to 30 June 2026, Kainga Ora will be adding a further 2,650 homes to the social housing stock, including housing on many of those sites.

Under the current direction to shift focus from growing our housing portfolio to investing in our existing homes, not all the undeveloped land will be required in the future. Therefore, Kāinga Ora is determining which sites should be kept for potential development later and which ones could be sold. Where we do sell land, we will seek to get a fair market price, and the money will be reinvested to improve the quality of our existing homes.

The attached table lists the 182 vacant sites that were purchased with the intent to build social housing. Not all sites were purchased with the sole intent to deliver social housing. Some were purchased to deliver wider urban development outcomes, alongside social housing. Some sites included existing residential or

commercial buildings, but these were not intended for use by Kāinga Ora and were to be relocated or demolished before new housing was built. There is occasionally an exception when a home is used temporarily, for example to house tenants while major maintenance is undertaken on other homes, before redevelopment plans are confirmed.

This list represents less than five percent of Kāinga Ora total land holdings and includes land purchased as part of the Kāinga Ora Large-Scale Projects (LSPs) in Auckland and Porirua. These are long-term urban development programmes involving redevelopment of brownfield land to enable a mix of social and market housing to be delivered. In line with the scope of your request, we have only included the sites within the LSPs that had been specified for social housing when originally acquired. Some of these sites will now be used for market housing rather than social housing delivery.

You also asked about 28 Adelaide Road, Wellington, Ferncliffe Farm, Tauranga and Quaifes Road, Christchurch. These are not included in Attachment 1 as these were land purchases for market and affordable housing. These three pieces of land were purchased under the Land Programme, which was established by the previous Government through decisions in Budget 2021. This Land Programme enabled Kāinga Ora to borrow up to \$2 billion to strategically purchase land to increase the pace, scale and mix of housing developments, including more affordable housing, and is separate from other Kāinga Ora land acquisition programmes (i.e. social homes land acquisition) as it was focused on land supply to deliver broader urban development outcomes.

It is not unusual for there to be a time lag between when a developer buys land and when it gets developed. Before Kāinga Ora develops land, it undertakes thorough planning and design work to ensure best value for money, the development is a good fit for the neighbourhood, and that it will bring the best outcomes for the people who will live there, their neighbours and the wider community.

Occasionally extensive remediation of the land, complex consenting processes or other unforeseen development issues can require additional time to remedy these matters before construction can begin.

Changing economic conditions and rising build costs can also affect the feasibility of a project. This can sometimes mean a proposed development becomes overly complex or no longer financially viable to proceed with as originally planned. In these situations, we may explore other options such as re-designing the project, partnering with a developer to enable an appropriate mix of housing, or selling the land.

Land purchases ranged from small sections to large undeveloped blocks. The land that had a zero purchase price involved a land swap.

I trust you find the information provided helpful.

Under section 28(3) of the Act, you have the right to seek an investigation and review by the Ombudsman of this response. Contact details can be found at www.ombudsman.parliament.nz.

Please note that Kāinga Ora proactively releases our responses to official information requests where possible. Our response to your request may be published at kaingaora.govt.nz/publications/official-information-requests/ with your personal information removed.

Yours sincerely

Gareth Stiven

General Manager, Strategy Finance and Policy
