Glossary

Vacant Homes

Those homes being made available to re-tenant

Vacant homes - Being made available to let

Coming Into Service	Newly completed homes that may require final completion works or may be part of a larger project where they cannot be tenanted until work on the wider site is complete for health and safety reasons.
Ready to let	Homes that are in the process of being matched to a suitable tenant.
Under Repair	Homes receiving minor repairs and upgrades before new tenants move in to ensure the home is safe, warm, dry, and we are meeting our obligations as a landlord.

Vacant Homes - Unavailable for letting

Pending Decision	Homes that are waiting decision on best future use.

Staggered Tenancies

Staggered Tenancies	New homes that are part of buildings with around 30 or more units. Kāinga Ora takes care regarding the speed at which it matches and places tenants in multi-storey developments that are typically in larger cities. From experience and observations of international best practice, progressively having tenants move into these buildings allows for better management of the logistical challenges that occur with lots of people moving into a location at the same time.
